

Texas Reverse Mortgage Resources

A Texas Reverse Mortgage is a special type of home loan that seniors can obtain that provides additional income during retirement. One of the benefits of owning a home is that equity builds as mortgage payments are made and real estate values rise. With a Reverse Mortgage, that equity is paid back to the home owner in the form of cash. Funds received from an Reverse Mortgage have many uses: covering unexpected medical expenses, supplementing social security payments, and even enabling early retirement.

Repayment of a Reverse Mortgage is unnecessary until the borrower(s) no longer treat the home as their primary residence. However, there are a few qualification requirements for a Reverse Mortgage: you must be a Texas resident, who is at least 62 years old, and have substantial equity in your home.
